

Lightweight and high-performance

Heating cabinet for contrast agent heating

Compact heating cabinet for flexible use

- Small and lightweight for CT use
- Heating of viscous contrast agents for higher flow rates
- Ready for immediate use thanks to easy handling
- Optimized patient comfort through the use of temperature-controlled contrast agents

Device Features

- Electronic temperature control
- Alarm in the event of a malfunction
- Rustproof stainless steel housing
- Glass door with viewing window, lockable
- Temperature range up from 30 °C to 70 °C
- 2 stainless steel shelves, variable applications

Technical Data

Dimensions (W × D × H)	560 mm × 370 mm × 380 mm
Weight	10.2 kg incl. perforated plates
Capacity	20 l
Power Connection	230 V
Frequency	50/60 Hz
Power input	100 W
